

[BeginText]

In regards to your letters of January 23rd, upon further investigation we have discovered that most, but not all, of the contributions questioned in your letter that appear to have been received during the 48 hour reporting window were actually received outside that window and incorrectly dated by inexperienced staff. On July 18th (Ga. Primary election day) and November 6th, our office conducted a search of our files to make sure that no contributions had been misplaced. Those contributions were accepted that day and recorded as such.

As to the report covering 6/29/2006 through 9/30/2006:

All of the contributions in question were mistakenly entered as having occurred on the date that the check was written by the contributor and not the date they were received. The employee in question left the staff in September 2006.

The following contributions were accepted on 8/2/2006:

Mr. Jerry Marcus

Mr. Michael Neril

Rena Cole

Barry Cohen

The following contributions were accepted on 7/18/2006:

Aircraft Owners and Pilots Association

The following contributions were received on 7/27/2006:

Allyson Schwartz for Congress

A Thomas Stubbs (Since Mr. Stubbs contribution will have to be applied to the General Election Campaign, the excessive contribution amount of \$150 is being refunded on the date of this filing.)

As to the report covering 10/19/2006 through 11/27/2006:

All but two of the contributions in question were mistakenly entered by inexperienced staff as having occurred on the date that the check was written by the contributor and not the date they were received. The Contribution from Zipperer, Lorderbaum and Beauvais was a partnership contribution and properly reported as a contribution from Mr. Lorderbaum who is the partner making the contribution.

The following Contributions were received 11/6/2006

American Bankers Association

Arch Leadership PAC

The following Contributions were received 12/1/2006

Keep Hope Alive PAC
